2010 REGIONAL HEALTH CARE EDUCATION & TRAINING CONFERENCE

Friday, March 26, 2010
8:30 a.m. to 4:30 p.m.
Seattle Central Community College
Mitchell Activity Center

Current trends, both global and local, (re: changing demographics, growing workforce shortages, health care reform, an aging population and an exploding global health industry) all drive the need for discussion. **Community Colleges, Universities, Health Care industry partners, and community organizations all have a critical stake in facilitating successful solutions for the major challenges we all face in the present-day health care arena.**

IMPACTING HEALTH CARE SERVICES FOR DIVERSE COMMUNITIES THROUGH IMPROVED HEALTH CARE EDUCATION AND TRAINING

Who Should Attend?

- › Health care educators
- › Government Health Care agencies and organizations
- › Administrators and staff from health care providers
- › Officers of health care associations

The conference will provide a unique opportunity for professionals from various sectors of the health care industry to meet, network and formulate partnerships to meet the growing health care worker shortages in our region.

Major Speakers Include:

TAMIKA CORREIA

*Executive Director,
Labor & Workforce Development,
Commonwealth of Massachusetts*

VICKIE YBARRA, RN, MPH

*Chair,
Governor's Council on
Health Disparities;
Director of Planning & Development

BOB DREWEL

*Executive Director,
Puget Sound Regional
Prosperity Partnership*

LISA COHEN, MA

*Executive Director,
Washington State
Global Health Alliance*

Conference Focus Areas

National, regional and local speakers and presenters will share information on programs and strategies to:

- ❖ Increase the number of candidates for the health care services industry, especially those from diverse language and cultural communities.
- ❖ Expand education and training opportunities for incumbent health care workers for purposes of retention and advancement.
- ❖ Improve the knowledge and skills of incumbent health care workers to better service clients from diverse language and cultural communities.
- ❖ Build the awareness of health care career and education opportunities in the broader and diverse communities.
