Prerequisite Course Guide for Community and Technical College Registered Nurse (RN) Programs in Washington State Nursing

(Based on website review) Last updated: 10.17.2025

For a complete list of Washington State Board of Nursing-approved nursing programs visit, https://nursing.wa.gov/education/nursing-education-programs/approved-nursing-education-programs, and click on "Nursing programs in Washington (PDF)".

Spreadsheet Notes

• This spreadsheet was created to be a general guide to support potential nursing students in mapping out their nursing education. It is reviewed and updated twice a year (generally in late spring and mid-fall) and may not contain the most up-to-date information. **For the most up-to-date information on each program, you must visit the program website.**

• Nursing programs have additional requirements to apply. These requirements can vary from program to program. Be sure to carefully review the application requirements for any program you want to apply to.

Some additional requirements can include the following (this is not a complete list of all possible requirements). Visit the program website for more detailed information.

- Completion of a Pre-Admission Exam (PAX Exam), or the Test of Essential Academic Skills (TEAS). Some programs require a specific PAX Exam or TEAS Test score. **Visit the program website for more detailed information.**
- An active, unencumbered Washington State Licensed Practical Nurse (LPN) License.
- Proof of current immunization status: Vaccinations must be up-to-date and current.
- A background check performed by the Washington State Patrol and with a "No Record On File" report with the Department of Social and Health Services. (All nursing students are required to complete a background check. The background check is usually completed through the nursing program you are applying to.)
- American Heart Association CPR for the Health Care Provider. This includes adult, child, and infant, under the guidelines of the American Heart Association. Online CPR courses are not accepted.
- Students can be required to carry personal health/medical insurance throughout their clinical rotations.

• College-level skills in English and math (eligibility for courses numbered 100 or higher) are required before registering for the the college-level nursing prerequisite courses listed on this spreadsheet. Students may need to complete additional prerequisite coursework if they do not yet qualify to register for these college level courses.

Legend	
Schools Highlighted in Blue have DTA/MRP program options. (Direct Transfer Agreement/Major Related Program)	• Programs in a blue box offer Direct Transfer Agreements (DTA). • Completion of the DTA/MRP program will satisfy requirements for direct transfer with only one additional year of study to complete the Bachelor of Science in Nursing (BSN) degree at four-year institutions in Washington State. • A transcript evaluation process for all courses taken at another institution must be completed by the program being applied to. • This spreadsheet does not guarantee a prerequisite course taken at one institution will be accepted at another institution. • Always double-check the college requirements with any other school to ensure they accept the direct transfer agreement. • It is highly recommended (and often required) that students meet with an academic advisor or counselor to ensure the college they choose does not have additional requirements.
(yellow)	• Courses highlighted in yellow are considered core prerequisite courses for most (but not all) programs.

"Planning prerequisite courses can be complicated. Without all of the information or a plan, you risk wasting your time and money. After attending an information session schedule an appointment with an academic advisor to help you plan a sequence of courses for your unique circumstances. If you intend to take prerequisite courses somewhere else, check with an academic advisor about transferability."

Walla Walla Community College	LPN to RN (ADN)	https://dept.wwcc.edu/nursing/	Associate Degree in Nursing	N/A	Applicants who have not provided proof of completing the following Nursing Degree Requirements before the start of Fall quarter will not be allowed to begin Nursing Core Courses. • Minimum GPA requirement: 2.0 for all college level classes. • X = Additional Nursing Degree Requirements Prior to Beginning Year Two Nursing (15 credits) After applications to both WWCC and NursingCAS are submitted: 1. After your complete application packet is submitted, but before the application deadline, schedule a pre-admission conference with the Dean of Nursing and Allied Health or his designee. To schedule, call (509) 527-4240 for the Walla Walla campus or (509) 758-1706 for the Clarkston campus. 2. If admitted, returning students and LPN applicants must complete skills, dosage calculation and medication administration testing. Admitted students will receive a copy of the policy as well as a list of skills they may be tested on. Testing must be successfully completed within three attempts by the end of the second week of the quarter. 3. Admitted LPNs must comply with the Nursing Degree Requirements for the Associate in Nursing DTA/MRP degree. This will include "bridge" courses to complete classes required during the first year of Nursing Core Courses (up to 2 credits of Ethics and Policy in Healthcare and up to 3 credits of Psychosocial Issues in Healthcare, depending on quarter of entry). 4. Please note: students who have previously attended WWCC Nursing Core Courses within the past year and are requesting re-entry are given priority over LPN applicants from other nursing programs.
