Advanced Registered Nurse Practitioner (ARNP)	\$97k-\$143k

IS NURSING RIGHT FOR YOU?

Nursing is a profession that blends scientific knowledge with compassion and caring. There are few professions that combine high tech and high touch like nursing. If you excel at math and science, enjoy working with technology, and want to make a difference in the lives of others, then nursing might be the perfect career for you!

FUN FACT: Only about 50% of nursing jobs are in the acute care setting (hospitals), the rest are in settings such as schools, clinics, outpatient and ambulatory care centers, home care, community health centers, and the military, just to name a few.
